# ALOE VERA GLOVE FACTS

## PATENTED GLOVE

### Eigenschaften von Einmalhandschuhen mit Aloe Vera Beschichtung - Patentiertes Verfahren

Die puderfreien, texturierten Aloe Vera Einmalhandschuhe der Marke BLOSSOM sind mit einzigartigem und natürlichem Aloe Vera der Handelsmarke Active Aloe versehen. Die innenseitige Beschichtung durch Active Aloe schützt die Haut vor Austrocknung und hält diese geschmeidig. BLOSSOM fertigt verschiedene Handschuhstypen, wie etwa Latex mit Aloe, Latex mit Aloe und Vitamin E sowie Nitril mit Aloe, an. Sämtliche Produkte sind patentiert.

BLOSSOM Aloe Vera Einmalhandschuhe weisen einen sehr geringen Gehalt an Proteinen und Allergenen auf. Sämtliche Handschuhe wurden seitens des IASC (International Aloe Science Council) auf Reinheit und Konzentration der verwendeten Aloe getestet. Durch die spezielle "Pack Rite" Verpackung sämtlicher BLOSSOM Einmalhandschuhe wird die Möglichkeit einer Kreuzkontamination während des Handschuhwechsels reduziert.

Weiters wurden diese Handschuhe von The Dental Advisor mit 96% (5++++) bewertet.
